

Hand Cleaners

Stericlean-M

Hand disinfectant gel effective against bacteria incl. Tubercule Bacillus, Fungi, Viruses

COMPOSITION :

Each 100 gms contains :
 1-propanol BP : 30 gm (30 % w/w)
 2-propanol BP : 45 gm (45 % w/w)
 Macetronium
 Ethyl Sulphate : 0.2 gm
 (ethyl-hexadecyl-dimethyl
 ammonium-ethylsulphate)
 Excipients q.s.

Sodium Hypochlorite
Solution USP**Clomex**

- Powerful Disinfectant
- Deodorizing Agent
- Bleaching Agent
- Oxidizing Agent
- Useful for sanitation

COMPOSITION:

By Weight of Sodium Hypochlorite USP
 Not Less Than 4% & Not More Than 6%
 Liquid Base Q.S.

Surface & Environment
Disinfectant Concentrate 500 ml**Bactocid**

Composition :

100gm of Solution contains:
 1,6 Dihydroxy 2,5-Dioxyhexane
 (Chemically bound formaldehyde) 11.2 gm
 Glutaraldehyde USP 5 gm
 Benzalkonium chloride USP 5 gm
 Alkyl urea derivatives 3 gm
 Excipients q.s.

Isopropyl Rubbing
Alcohol USP**Isop**

ALDEHYDE FREE
 Surface and Equipment Disinfectant

COMPOSITION:

Isopropyl Alcohol USP 70% v/v
 Benzalkonium Chloride USP 0.025% v/v
 (As Preservative)
 Purified Water q.s.

Instrument Disinfectant
Concentrate**WORSOLEX**

COMPOSITION :

Each 100 gm contains
 Glutaraldehyde 7.0 gm
 (Eq. To Glutaraldehyde USP 14 %)
 1,6 Dihydroxy - 2,5 Diohexane 8.2 gm
 (Chemically Bound Formaldehyde)
 Polymethyl Urea Derivatives 17.6 gm
 Base Aqueous q. s.

Benzalkonium Chloride Solution USP

WEZOL

Ideal For Pathology Lab

COMPOSITION:
Benzalkonium
Chloride Solution USP 4.5 % w/v
Excipients q. s.
Colour: Tartrazine yellow And Alizarin
Cyanine Green F.

2-propanol & Chlorhexidine Gluconate solution

SEPTSOFT-P

FOR TOTAL DISINFECTION WITHOUT
SOAP AND WATER

COMPOSITION:
2-Propanol BP 70 %v/v
Chlorhexidine Gluconate
Solution BP 2.5 %v/v
(Eq. to 0.5%w/v Chlorhexidine Gluconate)
Aqueous Base q. s.
Colour: Brilliant Blue(FCF Supra)

Povidone Iodine Solution BP

Wetadine-5

Topical Antiseptic
Microbicidal solution
Helps Prevent infection in cuts, Scrapes,
Burns and minor skin wounds
A primary Hospital Antiseptic

COMPOSITION :
Povidone Iodine USP 5 % w/v
(Available iodine 5 %)
Liquid base q.s.

Povidone Iodine Solution BP

Wetadine-7.5

Topical Antiseptic
Microbicidal solution
Helps Prevent infection in cuts, Scrapes,
Burns and minor skin wounds
A primary Hospital Antiseptic

COMPOSITION :
Povidone Iodine USP 7.5 % w/v
(Available iodine 0.75 %)
Liquid base q.s.

Povidone Iodine Solution BP 10 %

Wetadine-10

Topical Antiseptic
Microbicidal solution
Helps Prevent infection in cuts, Scrapes,
Burns and minor skin wounds
A primary Hospital Antiseptic

COMPOSITION :
Povidone Iodine USP 10 % w/v
(Available iodine 10 % w/v)
Aqueous base q.s.

Povidone Iodine Cleansing Solution USP

Wetadine Scrub

With Skin friendly pH and moisturiser for frequent use

COMPOSITION
 Povidone Iodine USP 7.5% W/V
 (0.75 % W/V Available Iodine)
 Aqueous Base q. s.

Glutaryl Disinfectant Solution USP

Gludex-2

Composition:
 Glutaraldehyde Solution USP 4% W/V
 eq. to Glutaraldehyde 2% W/V
 Aqueous Base q. s.

Chlorhexidine Gluconate Solution BP 20 % v/v

Septlon Scrub

COMPOSITION :
 Chlorhexidine Gluconate Solution BP20 % V/V.
 Eq. to Chlorhexidine Gluconate 4 % W/V.
 Excipients q. s.

HYDROGEN PEROXIDE SOLUTION BP 6% V/V

Perosol

COMPOSITION:
 Each ml Contains:
 Hydrogen Peroxide Solution BP 6% v/v
 Excipients q. s.

Strong Antiseptic Solution

COMPOSITION:
 Chlorhexidine gluconate Solution BP 1.5 % v/v,
 Cetrimide Solution BP 3.0 % w/v,
 Aqueous base q. s.
